BESLOBBERS LOWER HOUSE OF CONGRESS.

New York, Aug. 20 .- A letter written business. by President Roosevelt to Congressclaring "to change the leadership and business use of wealth and especially being consumed by argument of techniorganization of the house at this time means to bring confusion upon those the course of congress within the last who have successfully engaged in the few years and the hearty agreement steady working out of a great and between the executive and legislative comprehensive scheme for the better- departments of the nation in taking the ment of our civil and social conditions," needed action each within its sphere, have resulted in the nation for the first was made public today through the time definitely entering upon the career Republican congressional committee of proper performance of duty in these The president also declared that such matters. a change would result in a hurtful oscillation between the extreme radical and the extreme reactionary. The president also said he hopes the present demagogue in this matter, to confine congress will enact laws prohibiting one's self merely to denouncing the political contributions by corporations, lowering the duties on imports from vague language, measures so sweep-the Philippines and limiting the numing that while they would entirely fail ber of hours for railway employes.

Wobbles on the Tariff.

Of the tariff Mr. Roosevelt says: tective tariff and we feel that the phe- ate predecessors have done; that is, nemenal industrial prosperity which sternly to disregard alike the self inwe are now enjoying is not lightly to be jeopardized, for it would be to the last degree foolish to secure here and there a small benefit at the cost of general business depression. But whenever a given rate or schedule becomes ever a given rate or schedule becomes opposition to them. But this is preciseevidently disadvantageous to the na-tion, because of the changes which go The previous congress, by the enacton from year to year, in our conditions, and where it is feasible to change this rate or schedule without too much dislocation of the system, it will be done, while a general revision of the rates and schedules will be undertaken and schedules will be undertaken and schedules will be undertaken and schedules are to year, in our conditions, and the Elkins law and by the creation of the department of commerce and labor, including the bureau of corporations, had enabled us to make great strides in advance along the path of thus bringing the use of wealth in practice.

Senator Mitchell, and on July 22, 1992, Hermann recommended the temporary with drawal of the territory, amounting to about 3.840,000 acres, contained in the commerce and labor, including the bureau of corporations, had enabled us to make great strides in advance along the path of thus bringing the use of wealth in practice. whenever it shall appear to the sober business sense of our people that on the whole the benefits to be derived from making such changes will outweigh the disadvantages; that is, when the revision will do more good than harm.

Off on Wrong Foot.

'Let me add one word of caution, however. The question of revising the tariff stands wholly apart from the question of dealing with the so-called 'trusts'-that is, with the control of monopolies and with the supervision of great wealth in business, especially in corporate form. The only way in which it is possible to deal with those trusts and monopolies and this great corporate wealth is by action along the line of the laws enacted by the present congress and its immediate predecessors. The cry that the problem can be met by any changes in the tariff represents, whether consciously or unconsciously, ar effort to divert the public attention of great wealth in business, especially in More than half of mankind over sixty years of age suffer from kidney and blasting lisgrace enough to justify his elimination from the cause.

Disclaims Partisanship.

Mr. Roosevelt says that if only partisans were involved in this contest he should hesitate to say anything publicly in reference to it, but he does not feel that this is the case. The president declares "that with Mr. Cannon as speaker the house has accomplished a literally phenomenal amount of good work. It has shown a courage, good sense and patriotism such that it would

NAVAL OFFICERS ASK FOR INVESTIGATION

Mare Island Navy Yard, California, Aug. 20.-Captain Giles Harber, commander of the Independence, made the following statement today:

"In consequence of the numerous articles, false and slanderous, published in certain papers, in which the wardroom officers of this ship as a whole and some of them by name have been falsely accused, the wardroom officers today made an official request framed at a meeting that a board of investigation may be appointed at once in order that the plain truth may be ascertained and freely published in the press, the papers with but few exceptions having been publishing articles derogatory to their positions as officers and gentlemen, and also reflecting on the entire naval service. Captain Harber will favor their request and forward same to the navy
